

STAMFORD URBAN TRANSITWAY – PHASE II
(MYRTLE AVENUE RECONSTRUCTION)
Stamford, Connecticut

The project is funded through Federal Transit Administration and the City of Stamford.

Project Location:

Myrtle Avenue between Elm Street and East Main Street; and East Main Street between Myrtle Avenue and Lockwood Avenue to provide a direct link to the Stamford Transportation Center from East Main Street. .

Project Need:

Provide a direct link south of the railroad tracks to the Stamford Transportation Center area from East Main Street, to improve traffic operations, safety, efficiency, and encourage public transportation and non-motorized modes of transportation to address current and future traffic needs.

Project Description:

- *Three quarters of a mile long facility to provide direct connection to the Stamford Transportation Center from East Main Street through Stamford Urban Transitway – Phase I.*
- *Travel lanes, high occupancy vehicle lanes, bus priority, traffic signals, bicycle way, sidewalks, and landscaping*
- *Estimated Total Project Cost is \$ 40 million.*
- *One of the travel lanes in each direction will be dedicated for the use of buses, taxis, private shuttle vehicles, and vehicles carrying two or more persons.*

Rights-of-Way:

Rights-of-way requirements for the project affects seventy (70) properties along the proposed facility to accommodate the new direct link, widening, and the alignment.

Project Schedule: (Date of Completion)

<i>Environmental Assessment Process</i>	<i>Spring of 2006</i>
<i>Final Design</i>	<i>Spring of 2009</i>
<i>Rights-of-way Acquisition and Relocation</i>	<i>Spring of 2009</i>
<i>Construction - Completion</i>	<i>Spring of 2011</i>
