Sec. 201-6. Ultimate Responsibility.

The standards set forth herein and promulgated pursuant to this Ordinance are minimum standards; therefore this Ordinance does not intend nor imply that compliance by any person will ensure that there will be no contamination, pollution, nor unauthorized discharge of pollutants.

Sec. 201-7. Discharge Prohibitions.

A. Prohibition of Illicit Discharges.

No person shall discharge or cause to be discharged into the municipal storm drainage system or watercourses any materials, including but not limited to pollutants or waters containing any pollutants that cause or contribute to a violation of applicable water quality standards, other than stormwater.

B. Exceptions

1. The following non-stormwater discharges, provided that they do not contribute to a violation of water quality standards and are not significant contributors of pollutants to the MS4: landscape irrigation and lawn watering runoff, provided that all pesticides, herbicides, and fertilizers have been applied in accordance with approved labeling; uncontaminated ground water discharges such as pumped ground water, foundation drains, water from crawl space pumps and footing drains; discharges of uncontaminated air conditioner or refrigeration condensate; for street sweeping activities conducted by the MS4, residual street wash waters that do not contain detergents and where no non-remediated spills or leaks of toxic or hazardous materials have occurred; and naturally occurring discharges such as rising ground waters, uncontaminated ground water infiltration (as defined at 40 CFR 35.2005(20)), springs, diverted stream flows and flows from riparian habitats and wetlands.

2. Discharges specified in writing by Regulatory Compliance and Administrative Officer as being necessary to protect public health and safety.

3. Dye testing is an allowable discharge, but requires a verbal notification to the Regulatory Compliance and Administrative Officer prior to the time of the test.

4. The prohibition shall not apply to any non-stormwater discharge permitted under an NPDES permit, waiver, or waste discharge order issued to the discharger and administered under the authority of the Federal Environmental Protection Agency, provided that the discharger is in full compliance with all requirements of the permit, waiver, or order and other applicable laws and regulations, and provided that written approval has been granted for any discharge to the storm drain system by the appropriate authority.

C. Prohibition of Illicit Connections.

1. The construction, use, maintenance or continued existence of Illicit Connections to the storm drainage system is prohibited.

2. This prohibition expressly includes, without limitation, Illicit Connections made in the past, regardless of whether the connection was permissible under law or practices applicable or prevailing at the time of connection.

3. A person is considered to be in violation of this Ordinance if the person connects a line conveying sewage to the MS4, or allows such a connection to continue.

Sec. 201-8. Suspension of MS4 Access.

A. Suspension Due to Illegal Discharges in Emergency Situations

The Regulatory Compliance and Administrative Officer may, without prior notice, suspend MS4 discharge access to a person when such suspension is necessary to stop an actual or threatened discharge which presents or may present imminent and substantial danger to the environment, or to the health or welfare of persons, or to the MS4 or Waters of the United States. If the violator fails to comply with a suspension order issued in an emergency, the Regulatory Compliance and Administrative Officer may take such steps as deemed necessary to prevent or minimize damage to the MS4 or Waters of the United States, or to minimize danger to persons.

B. Suspension due to the Detection of Illegal Discharge

Any person discharging to the MS4 in violation of this Ordinance may have their MS4 access terminated if such termination would abate or reduce an illegal discharge. The Regulatory Compliance and Administrative Officer shall notify a violator of the proposed termination of its MS4 access. The violator may petition the Director of Operations for a reconsideration and hearing. Any hearing shall be conducted in accordance with the provisions of the Uniform Administrative Procedure Act, C.G.S. Sections 4-166 through 4189g.

A person commits an offense if the person reinstates MS4 access to premises terminated pursuant to this Section, without the prior written approval of the Regulatory Compliance and Administrative Officer.

Sec. 201-9. Industrial or Construction Activity Discharges.

Any person subject to an industrial or construction activity NPDES stormwater discharge permit shall comply with all provisions of such permit. Proof of compliance with said permit may be required in a form acceptable to the Regulatory Compliance and Administrative Officer prior to the allowing of discharges to the MS4.

Sec. 201-10. Monitoring of Discharges.

A. Applicability.

This Section applies to all Premises that discharge stormwater.

B. Access to Premises.

1. The Authorized Enforcement Agency shall be permitted to enter and inspect Premises as often as may be necessary to determine compliance with this Ordinance. If a discharger has security measures in force which require proper identification and clearance before entry into its Premises, the discharger shall make the necessary arrangements to allow access to the Authorized Enforcement Agency.

2. All property owners shall allow Authorized Enforcement Agency ready access to all parts of the premises for the purposes of inspection, sampling, examination and copying of records that must be kept under the conditions of an NPDES permit to discharge stormwater, and the performance of any additional duties as defined by state and federal law.

3. The Authorized Enforcement Agency shall have the right to set up on any Premises such devices as are necessary in the opinion of the Authorized Enforcement Agency to conduct monitoring and/or sampling of the Premises' stormwater discharge.

4. The Authorized Enforcement Agency has the right to require the discharger to install monitoring equipment as necessary. The monitoring equipment shall meet all specifications required by the Authorized Enforcement Agency. The discharger shall provide the Authorized Enforcement Agency with copies of all such monitoring reports as the Agency may reasonably require, including but not limited to laboratory reports for selected parameters. The Premises' sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the discharger at its own expense. All devices used to measure stormwater flow and quality shall be calibrated by qualified personnel to ensure their accuracy.

5. Any temporary or permanent obstruction to safe and easy access to the Premises to be inspected and/or sampled shall be promptly removed by the Owner at the written or oral request of the Authorized Enforcement Agency and shall not be replaced. The costs of clearing such access shall be borne by the Owner.

6. Unreasonable delays in allowing the Authorized Enforcement Agency access to a Premises is a violation of this Ordinance. A person who is the Owner of such Premises commits an offense if the person denies the Authorized Enforcement Agency

reasonable access to the Premises for the purpose of conducting any activity authorized or required by this Ordinance.

7. If an Authorized Enforcement Agent has been refused access to any part of the Premises from which stormwater is discharged, and he/she is able to demonstrate probable cause to believe that there may be a violation of this Ordinance, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program designed to verify compliance with this Ordinance or any Order issued hereunder, or to protect the overall public health, safety, and welfare of the community, then the Authorized Enforcement Agency may seek issuance of a search warrant from any court of competent jurisdiction.

Sec. 201-11. Notification of Spills.

Notwithstanding other requirements of law, as soon as any person who is the Owner of or who is responsible for a Premises has information of any known or suspected release of materials which are resulting or may result in illegal discharges or pollutants discharging into stormwater, the storm drain system, or water of the United States, said person shall take all necessary steps to ensure the discovery, containment, and cleanup of such release. In the event of such a release of hazardous materials, said person shall immediately notify emergency response agencies of the occurrence via emergency dispatch services. In the event of a release of non-hazardous materials, said person shall notify the Regulatory Compliance and Administrative Officer in person or by telephone or facsimile no later than the next business day. Notifications in person or by telephone shall be confirmed by written notice addressed and mailed to the Regulatory Compliance and Administrative Officer within three business days of the phone notice. If the discharge of prohibited materials emanates from a commercial or industrial establishment, the Owner or operator of such establishment shall also retain an on-site written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least three years.

Sec. 201-12. Enforcement.

A. Notice of Violation.

Whenever an Authorized Enforcement Agent finds that a person has violated a prohibition or failed to meet a requirement of this Ordinance, he or she may order compliance by written notice of violation to the responsible person or persons. Such notice may require without limitation:

- (6) The implementation of source control or treatment BMPs.

If abatement of a violation and/or restoration of affected property is required, the notice shall set forth a deadline within which such remediation or restoration must be completed. Said notice shall further advise that, should the violator fail to remediate or restore within the established deadline, the work will be done by a designated governmental agency or a contractor and the expense thereof shall be charged to the violator.

B. Fines.

The fines shall not exceed the maximum permitted under state law, and the amount shall be determined in accordance with this Subsection B.
