## Stormwater Management Plan City of Stamford

---

### Acronyms

### Executive Summary

- 1 Introduction
  - 1.1 Overview
  - 1.2 Overview of Selected Components
- 2 Pollution Prevention Team
  - 2.1 Pollution Prevention Team Function
  - 2.2 Pollution Prevention Team Members
- 3 Mapping
  - 3.1 Initial Mapping Requirements
  - 3.2 IDDE Mapping Requirements
  - 3.3 Mapping Status
- 4 Control Measures
  - 4.1 Public Education and Involvement
    - 4.1.1 Program Elements
    - 4.1.2 Progress to Date
    - 4.1.3 Future Plans
  - 4.2 Pollution Prevention (Source Controls)
    - 4.2.1 Legal Authority
    - 4.2.2 Motor Oil Recycling
    - 4.2.3 Household Hazardous Waste
    - 4.2.4 Spills and Leaks
    - 4.2.5 Pesticides, Herbicides and Fertilizers
    - 4.2.6 De-icing Materials
    - 4.2.7 Unpermitted Discharges to MS4
  - 4.3 Land Disturbance and Development
    - 4.3.1 Program Requirements
    - 4.3.2 Legal Authority
    - 4.3.3 Interdepartmental Coordination
    - 4.3.4 Low Impact Development Measures
    - 4.3.5 Stormwater Management Implementation
    - 4.3.6 Site Review and Inspection

- 4.3.7 Public Involvement
- 4.3.8 State Permit Notification
- 4.3.9 Impervious Cover
- 4.4 Infrastructure Operations and Maintenance
  - 4.4.1 Employee Training
  - 4.4.2 Infrastructure Repair and Rehabilitation
  - 4.4.3 Roadway Maintenance
  - 4.4.4 Sweeping
  - 4.4.5 Leaf Collection
  - 4.4.6 Snow Removal
  - 4.4.7 Catch Basin Cleaning
  - 4.4.8 Detention and Retention Ponds
  - 4.4.9 Interconnected MS4s
- 5 Illicit Discharge Detection and Elimination (IDDE) Program
  - 5.1 Program Elements
  - 5.2 Legal Authority
  - 5.3 Outfall Screening for Illicit Discharges
    - 5.3.1 Known Illicit Discharges
    - 5.3.2 Priority Ranking of Outfall Screening
    - 5.3.3 Priority Ranking for IDDE Investigation
    - 5.3.4 IDDE Investigation Schedule
    - 5.3.5 IDDE Investigation Methodology
  - 5.4 Illicit Discharges Detection Protocol (IDDP)
    - 5.4.1 IDDP Implementation
    - 5.4.2 IDDP Prioritization
    - 5.4.3 IDDP Mapping
    - 5.4.4 IDDP Methodology
- 6 Monitoring Program
  - 6.1 Legal Authority
  - 6.2 First Year - Description of Program
    - 6.2.1 Description of Methods
    - 6.2.2 Description of Quality Assurance
    - 6.2.3 Meteorological Resources that Will Be Used
  - 6.3 In-stream Dry and Wet Weather Monitoring of Receiving Water Quality
    - 6.3.1 Location
    - 6.3.2 Frequency
    - 6.3.3 Dry Weather Monitoring Conditions
    - 6.3.4 Wet Weather Monitoring Conditions
    - 6.3.5 Field Observations
    - 6.3.6 Parameters for Analysis
    - 6.3.7 Trend Analysis
  - 6.4 Wet Weather Outfall Monitoring
    - 6.4.1 Delineation of Outfalls to Be Monitored
    - 6.4.2 Discharges to Impaired Waters

- 6.4.3 Monitoring Methodology
- 6.4.4 Parameters for Analysis
- 6.5 Dry Weather Outfall Screening for Illicit Dischargers
- 6.6 Implementation Schedule
- 6.7 Evaluation and Reporting
- 6.8 Program Modifications
- 6.9 Monitoring Recordkeeping
  - 6.9.1 Monitoring Records
  - 6.9.2 Test Procedures
- 6.10 Monitoring Waiver
  
- 7 SMP Review and Modifications
  - 7.1 SMP Review
  - 7.2 SMP Modification by Permittee
  - 7.3 Modifications Required By Commissioner
  
- 8 Plan Certification
