- L. Clemon Williams – There are two (2) paraeducators whose retirement calculations were calculated on their date of hire instead of 2005 the year they started contributing to the pension. This was an error and has been corrected going forward. A paraeducator who is retiring asked me if her calculation could be from her date of hire also. I told her that it should be from 2005 which is according to the Plan document and I would bring her request before the Trustees for their answer.

The Trustees want to use the 2005 date which is according to the Plan document.
