RE: Notice of Traffic Cameras

A handwritten signature in blue ink, appearing to read "Mani Poola", is written over the "FROM:" line of the header.

In accordance with the Camera Review Committee's Policies and Procedures, Section 7, please accept this letter as a request from the Operations Department Traffic Division, for authorization for existing traffic cameras being used for Traffic Monitoring.

Traffic cameras are currently in place throughout the City of Stamford and are used to monitor the flow of traffic. According to Section 7.1, cameras used for the purpose of Traffic Monitoring shall have a surveillance level of 3 (disclosed and with or without a Public Feed, but with Monitored Surveillance).

During the period of time when the Camera Review Committee was inactive, the traffic camera program continued to install cameras in the City, following the previously established guidelines. The purpose of this request is to bring all existing traffic cameras into compliance with Section 7.2.

The locations of the cameras are attached in Exhibit A.

Thank you for consideration of this request. If you have any questions, please call me directly at 203-977-4237.
