**ADDENDUM NO. 4
(February 4, 2015)**

**RFQ No. 669
Design Services for
New K-5 IB Interdistrict Magnet School
at 200 Strawberry Hill Avenue, Stamford, CT**

Addendum No. 4 is being issued to all potential proposers to respond to inquiries received and to provide the following information.

1. The RFQ states a requirement is to have completed at least 3 public education facilities of a value of \$30M each in the last 5 years - would it meet the requirements of the RFQ if the proposer has completed 3 public education facilities of a value of \$30M each in the last 5 years in the State of New York?

Answer: A prior Addendum reduced the amount of projects from 3 to 2 and increased the years from 5 to 7. The RFQ does not specify that the 2 projects need to be completed in the State of Connecticut. However, the RFQ does expressly require experience with the State of Connecticut Office of School Facilities. Your proposal should expressly state whether your firm has such experience and describe the extent of your firm's experience.

2. The RFQ states the proposer must be a licensed company in the State of Connecticut. Would this requirement be met if the proposer has staff licensed in the State of Connecticut and is eligible to receive a Certificate of Legal Existence from the state should the firm be selected?

Answer: The requirement is that the firm must be licensed with the State of Connecticut Secretary of State to do business in the State of Connecticut. To do so, the requisite filings must be made with the Connecticut Secretary of State:

<https://www.concord-sots.ct.gov/CONCORD/index.jsp>

One requirement of such licensing is that your firm provides the Connecticut Secretary of State with the name and address of an entity authorized to accept the service of legal process on behalf of your firm.

3. The Traffic Impact Assessment is included with this Addendum.

All other terms and conditions of RFQ No. 669 remain the same.
