#### INSPECTION PROCEDURE:

After a building permit has been issued a HVAC, Plumbing and Electrical permits must be obtained before work is performed. After rough work has been done in walls and Ceiling rough inspections must be called in prior to framing inspections. After all rough inspections have been completed and signed off a framing inspection needs to be called in before closing walls and ceilings. After all rough inspections have been signed-off on the building card and work has been completed all final signatures have been obtained including all other required departments. The building card must be returned to the building department and a proper certificate will be issued. When an HV AC, Plumbing, Fire Protection, Roof and Siding permit has been issued without a building permit a final inspection must be obtained and a certificate of approval will be issued.
