**Re: Application 225-34; Application 225-35 – 1241 E Main St Associates LLC
Site & Architectural Plans and/or Requested Uses & Coastal Site Plan Review**

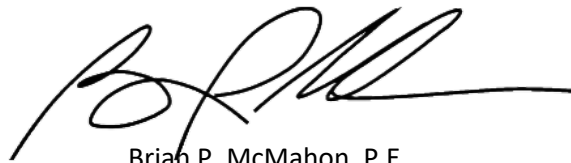

Dear Ms. Mathur,

On behalf of 1241 East Main Street Associates, LLC, this letter is in response to written comments issued by Ann Brown, P.E., Supervising Engineer for the Stamford WPCA, dated October 30, 2025 regarding the above captioned applications currently pending before the Stamford Zoning Board.

Redniss and Mead is the Site/Civil Engineer and Land Surveyor of record for the project. In her memorandum, Brown offers no objection to the above applications continuing through the Zoning Board process but will require that her comments on the application documents be addressed during the eventual Building Permit process. We have reviewed the comments and have found that they are all standard, final design requirements of WPCA which we anticipate will be addressed, in coordination with the architect, pool designer, and MEP Engineer during the Building Permit process.

We trust you will find this helpful in your and the Board's consideration of these applications. Should you have any questions or comments on this matter, please do not hesitate to call me directly.

Very truly yours,

Brian P. McMahon, P.E.
