Julie Lazcano, Acting Clerk of the Board

The Board of Finance is recommending a reduction of \$3,250,800 or 1.2% to the proposed Board of Education budget for 2017-18. This reduction includes adjustments in OPEB expense of \$1,433,000, pension costs of \$107,000 and additional reductions of \$1,710,000. The revised budget of \$269,736,292 represents a 2.2% increase over the allocated budget for the current school year.

While the Board of Finance has no line-item control of the Board of Education budget, it has been our practice in recent years to provide the rationale behind our reductions. Our recommendation is the result of two meetings devoted solely to a review of the BOE budget with district administration, a review of supporting material provided by the BOE and considerable deliberation.

The Board of Finance would like to acknowledge the Superintendent Kim for his efforts in submitting a budget that clearly evidenced fiscal responsibility. We offer several observations:

- We recognize the District's efforts to provide more support for struggling students and to better support special needs students with services provided in-district. However, fiscal constraints prevented us being able to fund the total number of additional teacher positions requested this year. We are encouraged by the district's initiatives and look forward to hearing about their impact on student outcomes.
- We appreciate that the responsibilities of building principals continue to expand and understand the value of the AI position, both in terms of administrative support and leadership development. However, fiscal constraints prevent us from being able to recommend funding all three requested new positions this year.
- We anticipate that in a transportation budget approaching \$14 million that routing efficiencies and other savings can yield \$250,000.
- The proposed Tuition budget represents a 7% increase over the current year. An increase of this magnitude would require a significant increase in out-of-district placements and/or tuition rate increases. Current statistics don't readily support such an increase, and we anticipate at least modest savings.

Our recommended cuts are as follows:

<b>Recommended Reductions</b>	
\$1,433,000	Reduction in OPEB expense
\$107,800	Reduction in Pension expense
\$300,000	Teacher Salary account, vacancy savings or other
\$400,000	Reduction in 5 teaching positions (SRBI and Special Education)
\$110,000	Reduction of 1 Administrative Intern Position
\$250,000	Transportation
\$250,000	Tuition
\$50,000	Teacher Extra Service
\$100,000	Contracted Services
\$250,000	Health Insurance
<b>\$3,250,800.00</b>	<b>Total</b>
