Director of Public Safety Jankowski advised the Board that this appropriation, stemming from the Matrix Study recommendations, was necessary to replace 15 yr old outdated software for the GIS Navigation system to maximize the functionality for the 911 system, noting that it would allow them to gain current mapping data. Deputy Fire Chief Trevor Roach added that the system upgrade | G. Bosak |

would also allow them to receive emergency text messages. Ms. Rinaldi wanted to know why this was requested under suspension of the rules, which should be reserved for fiscal emergencies. Director Jankowski stated that he was working on this project and his time here was dwindling as he served at the pleasure of the departing Mayor. Deputy Chief Roach added that if this appropriation was not approved now, they would be liable for paying the bill for \$30K maintenance of outdated software. On a motion by Mr. Martin, which was seconded by Mr. Bosak, the Board then acted to approve this appropriation by unanimous vote.

| | On a motion by Mr. Louizos, which was seconded by Mr. Bosak, the Board agreed by unanimous vote to consider items numbered 13 & 14 under suspension of the rules. While not holding back his approval, Mr. Martin suggested that the City could use the already approved \$2.7 million in bond money. Ms. Murphy agreed, stating that they should reallocate funds from the \$2.7 million that may not be used. Mr. Hricay stated that he would pay attention to this and may come back to close other capital funds that were already under review. On a motion by Mr. Martin, which was seconded by Mr. Louizos, the Board approved this resolution by a vote of 5-1-0, with Ms. Murphy casting the dissenting vote. | |

| | The Law Department created this agreement pursuant to State Law which allows the BOE, upon permission from the Board of Finance to carry over up to 1% of unexpended funds from | |

the prior year in a non-lapsing account. Superintendent Hamilton asked about the start date and the continuity of the agreement. Mr. Abbazia stated that he believed it would commence when the Board approved the agreement. Board of Education President Alswanger stated that he preferred that the agreement be approved in perpetuity, rather than for one year so as to allow them to create a systemic change in budgeting allowing them to be more fiscally responsible. Mr. Martin suggested that the agreement include a time line within which the Board of Finance must act to cancel the use of funds for any particular year, saying that the BOE needed some certainty for planning purposes. Ms. Murphy suggested that the Board of Education share a percentage of any surplus with the City, perhaps in a 60/40 ratio. Chairman Abbazia asked Education Committee Chairman Louizos to work with the Board of Education & the Law Department on fine tuning the agreement on items questioned noted above including the interpretation of the statute, and also the definition of a capital expense allowable under this agreement. On a motion by Mr. Louizos, which was seconded by Mr. Martin, the Board agreed to hold this item by unanimous vote.

| Video: 00:52 | After ascertaining who the property owner was for the subject property, Mr. Louizos stated that he had a conflict, and left the room. Legal Affairs Director Capalbo advised that the purpose of this taking (which is friendly) is to provide the City with the property & rights of way it needs to construct a round-about to improve traffic in this area. He added that legally speaking, it also helped the City to settle pending litigation where both parties were happy with the outcome. Sendak, Hennessey et. al Attorney Jackie Kaufman advised that this was a 3-step process where the taking and the street discontinuance, for which they would next come back before this Board for approval, were involved. The Board asked questions about continuation of the bike path & input from the Mill River Collaborative (Mr. Martin), traffic issues (Mr. Bosak) public access to waterfront (Ms. Rinaldi) and where the funds were contained for the acquisition of the property (Ms. Murphy). Regarding the former, City Traffic Engineer | M. Rinaldi |

Mani Poola advised that traffic circulation would be greatly improved and the roundabout would make it safer and that the funds for the Engineering Dept to create the roundabout were in the City Waterside Place intersection improvement project. Acting OPM Director Hricay advised that he would determine the source of the funds for the taking. On a motion by Mr. Bosak, which was seconded by Ms. Rinaldi, the Board acted to approve this resolution by 4-0-1, with Ms. Murphy abstaining.

- City Corporation Counsel Joe Capalbo advised that this agreement, which was an amendment to an existing lease, was intended to extend the term of the lease to expand the parking lot and for the City to receive certain improvements to the park, in turn. He then asked City Land Consultant Richard Redniss to elaborate on the City's benefit. Mr. Redniss advised that while there was a 13 % increase in membership at the Boys & Girls Club, the number of teens was decreasing. They determined that the best way to serve the population was to build a new gymnasium in the parking lot area and 2 basketball courts, that could also act as a tennis court. Mr. Bosak asked if the

Submitted by:	Lou Casolo, City Engineer	Seconded
Video: 01:40	Nancy Flynn advised that this bid waiver was sought to replace the HVAC system at the Rich Forum. Executive Director Michael Moran advised that SCA unknowingly sought 2 bids instead of requesting proposals for this service as required by the Purchasing Ordinance, but the HVAC system units had exceeded their useful life, and NBC was contributing \$200K toward the total cost which was over \$300K. Ms. Murphy questioned the change in the agreement between SCA & NBC regarding the use of the capital reserve, which was brought up by Ms. Flynn. Ms. Murphy maintained that there was not full disclosure of this agreement, and it was changed. Mr. Martin stated that he believed these funds were held by the City but were rightfully for the benefit of Stamford Center for the Arts, and governed by an agreement between SCA & NBC. Ms. Rinaldi stressed that the matter before them was the bid waiver. On a motion by Mr. Martin which was seconded by Mr. Louizos, the Board then acted to approve this bid waiver by a vote of 5-1-0, with Ms. Murphy casting the dissenting vote.	J. Louizos

Submitted by:	Ernie Orgera, Director of Operations	
Video: 01:57	City Grants Administrator Karen Cammarota explained that in order to adhere to State Grant requirements, the funds for this project had to be allocated to their own project. Therefore, they were requesting a close-out of the original project here, and then a supplemental appropriation (Item # 10) for allocation of these same funds to the new project. Mr. Martin suggested that this request should be phrased in the form of a recommendation since by Charter, the Board did not have to accept this, rather only had the option to reject it. The Board elected to take no action on this close-out.
