MANUFACTURING MACHINERY AND EQUIPMENT EXEMPTION CLAIM

This exemption claim form should accompany the Personal Property Declaration filed annually in order to properly receive the exemption provided under CGS §12-81(76) as amended by PA 14-183, sections 2, 3 & 4. The following definitions are applicable for purposes of Public Act 11-61 Sec. 2 and referenced in Sec. 3.

This form must be filed on or before November 1, 2017 with the municipal Assessor by any person seeking the exemption provided under CGS §12-81(76), as amended, for manufacturing machinery and equipment and installed in a manufacturing facility. This form is to be filed in the town in which the machinery and equipment is installed.

Machinery and equipment means tangible personal property which is installed in a manufacturing facility and claimed on the owner's federal income tax return as either five-year property or seven-year property, as those terms are defined in Section 168(e) of the Internal Revenue Code of 1986, or any subsequent corresponding internal revenue code of the United States, as from time to time amended, and the predominant use of which is for manufacturing, processing or fabricating; for research and development, including experimental or laboratory research and development, design or engineering directly related to manufacturing; for the significant servicing, overhauling or rebuilding of machinery and equipment for industrial use or the significant overhauling or rebuilding of other products on a factory basis; for measuring or testing or for metal finishing; or used in the production of motion pictures, video and sound recordings

IMPORTANT: Read the descriptions of Personal Property Code #10 and Code #13 before completing the application for exemption. To ensure that you receive the appropriate exemption, you must report the total cost of machinery and equipment (i.e., original cost, excluding sales tax, plus the cost of transportation and installation) under the appropriate category code.

Code # 10:

Machinery and equipment not eligible for exemption under CGS §12-81(76): Industrial or manufacturing machinery and equipment the owner claims or claimed on a federal income tax return as three-year property (e.g., tools, dies, jigs, patterns, etc.) or ten-year or greater property (i.e., property that has a class life of more than 16 years). Air and water pollution control equipment, regardless of its class life does not meet the predominant use criteria for exemption under CGS §12-81(76). Machinery and equipment located in a Distressed Municipality, Enterprise Zone or Enterprise Corridor Zone (regardless of its class life) for which you are filing Form M-55 to claim the property tax exemption under CGS §12-81(60) or (70). **Code 10 Machinery and equipment is reported on the annual Personal Property Declaration only.**

Code # 13:

Machinery and equipment eligible for exemption under CGS §12-81(76): Manufacturing machinery and equipment acquired and installed, that is predominantly used for manufacturing or biotechnology, or used in connection with recycling (as defined in CGS §22a-260) and the owner or lessee of such machinery and equipment must claim it on a federal income tax return as five-year property or seven-year property. To obtain the exemption under CGS §12-81 (76), the owner or lessee who claims such property on a federal income tax return must file the exemption application **Form U** (page 8 & 9).

Complete this form in its entirety, including the itemized listing of manufacturing machinery and equipment by year of acquisition.

Failure to file this form in the manner and form, and within the time limit prescribed, shall result in the assessor not applying the exemption allowed under CGS §12-81(76).
