

DON'T 'LEAF' THEM IN THE STREET!

2017 City of Stamford Leaf Pick-Up Program

Fall means fairs, pumpkins and beautiful foliage — and as our leaves fall this season, the City of Stamford wants to make your leaf pick-up process easy!

City-wide leaf pick-up will be divided by location with each designated area starting on a different day. The City will be divided into the following areas:

Area 1: Residences from the New York State line to the Merritt Parkway

- Leaf pick-up begins November 13.

Area 2: Residences between the Merritt Parkway and I-95

- Leaf pick-up begins on or about November 16.

Area 3: Residences below I-95

- Leaf pick-up begins on or about December 1.

Please remember that, per Connecticut State DEEP regulations, residents must not put leaves in the street. **This is a fineable offense.** Instead, leaves should be placed behind the curb for removal by city workers.

City crews will not return if leaves are not put out by start date for your designated area. Only loose leaves or leaves in paper leaf bags will be picked up. Residents can bring bagged leaves to the Katrina Mygatt Recycling Center located at 130 Magee Avenue.

NO BRUSH, grass clippings or bulky waste will be picked up. Owners of the adjacent properties will be cited or fined for leaving these curbside.

If you have any questions about leaf pick-up please call 203.977.4140 or visit www.stamfordct.gov/servicecenter.

Whenever possible, compost leaves or use a mulching lawn mower blade. If you have wooded property the leaves will naturally compost if raked or blown into. Do not cover catch basins, curbs, irrigation pipes, sprinklers and water curb boxes with leaves. Do not pile leaves near stone walls, fences, or trees. They could be damaged by heavy equipment removing leaves.

*Delays may occur because of bad weather
